

Clean Fuel for All Day Energy and Focus

Life doesn't stop and neither can you. That's why you need energy that stays with you, helps keep you alert and focused, and supports your memory all day.

No Crash or Jitters

You've probably tried an energy drink before that gave you a huge boost up front but also left you feeling jittery and came with a big crash. But who has time for that?

What if instead you had a scientifically formulated drink that used only clean caffeine enhanced with amino acids, vitamins, and antioxidants that revved up your body's own energy mechanisms to keep you powered up and focused no matter what your day throws at you?

That's exactly what X-Cite Energy Drink does!

Superiorly Healthy Energy

Formulated by Emmy Nutrition's Master Chemist, X-Cite fuels your body and brain to support long-lasting energy, improved focus, and enhanced cognition so that you can power through every part of your day.

Made using whole coffee cherries (coffea arabica) along with the amino acid, L-Theanine, and essential B vitamins, the natural ingredients in X-Cite are proven to promote energy and alertness, while supporting your memory and concentration.

Immediate Energy

The NADH found in X-Cite is what gives you an immediate energy boost – no waiting.

And, since the half-life of the proprietary NADH is five hours, you don't have to worry about your energy and focus fading out when you need it most.

Our customers love the fact that the NADH in X-Cite can be seen every time they mix up a drink since our proprietary formulation encapsulates in it small purple balls that improve its stability and ensure you get every one of its benefits.

Energy for Your Brain and Memory

The benefits of X-Cite don't stop there either...

The scientific formulation also powers up energy to your brain and memory.

X-Cite delivers Cognizin® to support your brain's vital production of acetylcholine (its energy machine) for additional focus and alertness along with Huperzine A to make it last even longer.

And, since it's infused with Green Tea, Macha Tea, and American Ginseng it can also support improved memory, thanks to the catechins and polyphenols found in the nutrients.

All Natural Energy that Tastes Great

At Emmy Nutrition, we're dedicated to helping you accelerate your life through science. That's why X-Cite has zero colors or dyes and is flavored and sweetened using only natural, low-calorie ingredients and tea extracts that won't raise your blood sugar.

What Can X-Cite Do for You?

- Support Long-Lasting Energy Levels
- Deliver Clean Fuel for Your Brain and Body with No Crash or Jitters
- Promote Enhanced Cognition and Memory
- Help You Keep Up Your Busy Lifestyle

What are People Saying about X-Cite Energy Drink?

"I've tried a lot of energy drinks but I have to say, X-Cite helped me to stay focused and keep going all day, with no crash in the afternoon. I love that it's a clean energy and gives me exactly what I need. It tastes great too!"
– Tyler

"NADH is so important to keep your energy levels from fading out and I love that with X-Cite you can actually see it in your drink. Those little purple balls in X-Cite, tell you that without a doubt you're getting the NADH you need to make sure you get the energy without the crash." – Adria Schmedthorst
